PLANT TOURS

for International Visitors to the United States

PENNSYLVANIA STATE UNIVERSITY
JUN 1967
DOCUMENTS COLLECTION

U.S. DEPARTMENT OF COMMERCE
United States Travel Service
Washington, D.C.

This list is arranged by State and city. For those who are interested in locating plants of a particular industry, it is also classified by industry. The plants of an industry may be located by referring to the page numbers shown in the Industry Classification Index and then by finding the appropriate industry code number on those pages.

In all cases appointments for plant tours should be made *in advance,* either by telephone or letter. Write or call the official listed. It should be kept in mind, of course, that retooling operations, vacations, and emergencies may make it impossible for a plant to receive visitors at any given time.

PLANT TOURS

for International Visitors to the United States

As part of the program to welcome international visitors to the United States, the U.S. Travel Service has compiled this listing of plant tours from information submitted by State-USTS liaison officers. It does not represent a complete listing of all tours, and in no way reflects upon plants that by inadvertence have been omitted. Revisions and additions to this list should be sent to the Visitor Services Division, U.S. Travel Service, Washington, D.C. 20230.

TENNESSEE

TENNESSEE VALLEY AUTHORITY

The visitor to TVA will be able to see giant generating units. On mainstream lakes he will see large freight tows on a deep waterway now connected with the Nation's 9,000-mile inland waterway system. He will see a score of large lakes that are used for recreation by millions from many States.

The TVA Information Office at Knoxville, Tennessee, makes special visiting arrangements for groups, including those interested in technical phases of dam and steam plant operation, or those wanting more comprehensive information about the overall resource development program.

Information about State parks on TVA lakes should be obtained from The Tennessee Division of State Information, Department of Conservation, Nashville.
